Joelle Leandre – voice, contrabass

the debut album of the French master improviser from the early 80s finally available again!

her impressive release-list over the years - solo, duos, trios, big projects – shows a range of works with most of the current improvisers, to new music (Cage, Scelsi) and dance and theatre with two main constants - playing live plus the celebration of improvisation.
This album here shows in a wonderful way how it all started – a strong player with her voice and her instrument.

Recorded at Studio Achille, Marly-le-Roi, France 1981 and Liben Studios, Cincinnati, USA 1982
Remastering by Martin Siewert 2026
