**Hermann Nitsch, Austria, painter, performance-artist and composer, was a crucial founding artist of „Viennese Actionism“. Exhibitions and Performances all over the world since the 60s.**

**The idea of the very sensual and archaic „Orgien Mysterien Theater“ was developed in the late 50s and is performed in variations until today.**

**Nitsch works out all settings of the rituals, the feast in great detail, precisely composes days of art, performance, food, wine and music – to celebrate the existence of mankind...**
